## Product Specifications

Structure:

|         |                                    |             |
|---------|------------------------------------|-------------|
| Name    | 氯亚铂酸钾                              | $K^+$ $K^+$ |
| EN Name | Potassium tetrachloroplatinate (I) |             |
| Catalog | P83030                             |             |
| CAS     | 10025-99-7                         |             |
| M.F.    | Cl <sub>4</sub> K <sub>2</sub> Pt  |             |
| M.W.    | 415.09                             |             |

| Test       | Norm  |
|------------|---|
| Appearance | Rose-red crystalline                          |
| Assay(Pt%) | ≥46.4%  |
| Solubility | Easily soluble in water, Insoluble in ethanol |
| Purity     | ≥99%  |
